

University of the Armed

Project Name: LiquorTrack

Team Name: Logical Lords

Integrantes: Issac Acurio, Armas Demian, Enrique Ayala

User Story ID	User Story	Task Name	Task Owner	Priority
US001	As an owner, I want to receive low-stock alerts so that I can place orders on time and avoid running out of popular items.	Implement stock alerts	Acurio	High
US002	As an owner, I want to record and manage credit payments so that I can clearly track who owes money and whether their payment has been processed.	Create credit management module	Armas	High
US003	As an owner, I want to view a list of best-selling products so that I know which items to order more frequently and make informed purchasing decisions.	Develop best-sellers report	Ayala	Medium
US004	As a cashier, I want the system to automatically apply active promotions and discounts so that manual charging	Implement discount logic	Acurio	Medium

	errors are prevented.			
US005	As an owner, I want the system to record every sale made by each specific employee so that I can manage cash flow and verify sales accurately at the end of the day.	Create employee sales tracking	Armas	High
US006	As an administrator, I want to manage supplier information and track pending orders so that the inventory updates automatically once a delivery is received.	Develop supplier & order module	Ayala	High
US007	As a cashier, I want the system to automatically prompt an age verification reminder with each purchase so that the store complies with legal selling regulations.	Implement age verification prompt	Acurio	Low
US008	As an owner, I want to create product bundles and view product recommendations so that I can offer cross-selling options to customers.	Develop product bundle and recommendation engine	Armas	Medium
US009	As an owner, I want to generate a daily cash closure	Implement daily cash reconciliation	Ayala	High

	report (total cash, card payments, and expenses) so that I can reconcile daily income accurately.	report
