Customer
- id : int
- name : String
- id Number : String
- phone : String
- email : String
- address : String
- active : boolean
+ register () : boolean
+ update () : boolean
+ get Details () : String
makes
Sales History
+ get AllSales () : List <Sale>
+ filter By Date (start : Date , end : Date) : List <Sale>
+ filter By Salesperson
lists
<<use>>
Sale
- id : int
- date : Date
- total : double
+ add Product (product : Product , quantity : int) : boolean
+ calculate Total () : double
+ register () : boolean
+ get Details () : String
registers
User
- id : int
- username : String
- password : String
- active : boolean
+ login (username : String , password : String) : boolean
+ logout () : void
+ changePassword (oldPass : String , newPass : String) : boolean
+ has Permission (permission : String) : boolean
acts as
Role
- id : int
- name : String
- description : String
+ get Permissions () : List <String>
Sale Detail
- quantity : int
- unit Price : double
- subtotal : double
+ calculate Subtotal () : double
refers to
Report
- id : int
- type : String
- content : String
- date Generated : Date
+ generate () : void
+ get Details () : String
summarizes
Inventory
- id : int
- current Stock : int
- min Stock : int
- last Update : Date
+ increase Stock (quantity : int) : void
+ decrease Stock (quantity : int) : boolean
+ get Stock () : int
+ is Below Minimum () : boolean
records stock of
Product
- id : int
- code : String
- name : String
- category : String
- brand : String
- price : double
- stock : int
- min Stock : int
+ register () : boolean
+ update () : boolean
+ get Details () : String
warns about
Alert
- id : int
- type : String
- message : String
- date Generated : Date
- read : boolean
+ check Stock () : boolean
+ generate () : void
+ mark As Read () : void
+ get Details () : String
Purchase
- id : int
- date : Date
- total : double
+ add Product (product : Product , quantity : int) : boolean
+ calculate Total () : double
+ register () : boolean
+ getDetails () : String
supplies
Supplier
- id : int
- name : String
- ruc : String
- phone : String
- email : String
- address : String
+ register () : boolean
+ update () : boolean
+ getDetails () : String
Purchase Detail
- quantity : int
- unit Cost : double
- subtotal : double
+ calculate Subtotal () : double
Date
- day : int
- month : int
- year : int
